Eric,
I'd like to add your suggestions to our agenda.

James M. Anderson

Subject: June 17, 2007 Source Control Meeting

As you are aware, we have scheduled a meeting with DEQ on June 19, 2007 to discuss the source control process. Kristine has identified the following items for discussion:

- 1) Schedule;
- 2) Upland properties (EPA vs. DEQ lists);
- 3) 104(e) letters (information request); and
- 4) Expanding source control to include the Downtown corridor (RM 11 - 16).

While I think these are excellent topics for the meeting, I would also like to discuss the topic of source control more broadly and would like to cover the following:

Update on source control activities - what is working and what is not.
Prioritization of source control efforts - are we expending our energies in the right places
DEQ Resources - how is DEQ allocating its resources between early actions, RI/FS and source control and is this the correct allocation
Decision making process - where do expect to be at the time of the ROD and what are the implications for source control efforts completed, underway and to be taken in the future.

Let me know what you think, Eric
